教材 Teaching materials	Course Planning: During the semester, 6 guest speakers will be invited to lecture in class. The remaining class sessions are open for thesis presentations by graduating Ph.D. students. Course Policies: Attendance will be taken. Meaningful class participation will be a factor in the determination of your grade. As in all classes, the more you put into a class, the more you get out of it. We encourage the sharing of ideas with the class, during class discussions. You are, of course, responsible for all material presented in class, even if you are absent. If you miss a class, you must get notes from someone else in the class, and you should designate someone to pick up any handouts for you. If you plan to attend class, you must be on time and remain for the entire lecture. Turn off any pagers or cellular phones. All of us are working hard in this class and we expect you to do the same.
